KANKAKEE TOLL IN BLAST 13

College Head Talks To High School Grads

President Of Knox Gives Commencement At Kankakee High

The 68th annual commencement for graduates of Kankakee high school was held last evening in the auditorium of the school. There were 170 graduates.

The program was opened with the singing of "America." The Rev. George Hensel gave the invocation. The high school chorus under the direction of Miss Mildred Fager, sang "Carmen" and "America, My Own."

The principal address was given by Dr. Carter Davidson, Ph. D., president of Knox college. Four faculty members of Kankakee high school have attended Knox college.

Dr. Davidson stated that the United States was in a storm, a man-made storm which man himself cannot stop. He continued that Americans can not forget Hitler and Hirohito and say, "Oh, everything will be all right." Furthermore they have no time for meditation, for planning the future peace and thinking about the war. Although meditation will not win the war, it is important. Americans can't just drop international affairs, as they did after the last war; Americans can't remain isolated from the rest of the world.

Dr. Davidson referred to the graduating group as the salt of the earth, in that they add flavor to their communities, states and nations; they would heal the wounds of the world; and they would preserve American ideals.

Looking at the seniors, he guessed that some of the students might be collectors of various things, but he warned them, "the best thing to collect is yourself, for you've got something there."

Look For Peace
Dr. Davidson, in talking about the peace after the war, declared there must be no compulsory measures, no mere contracts, but a world family relationship must be established.

Following the address, Miss Jo Anne Crowden, accompanied by Miss Ruth Riley, sang "Indian Love Call." The Rev. R. Everett Carr of St. Thomas church in Chicago presented the Kiwanis leadership trophies to Miss Mona Ray Mann and Richard Piersol. The presentation of the class gift, a \$250 check to be used for buying a sound projector system, was given by Joseph LaRocque, president of the senior class.

Principal R. Y. Allison presented the class of 1942 to Superintendent Irving Munson who, in turn, presented diplomas to the graduates. The program was closed by the singing of "The Star Spangled Banner" and the benediction by Rev. Hensel.

Judge Considers Custody Case

The future home of Joan Lucille Dandurand, 6, today was under consideration by Circuit Judge Luther B. Bratton, following a hearing yesterday.

The child's parents, Mrs. L. O. Harriet Percy, LaGrange, and Arthur Dandurand, Kankakee, divorced in 1938, both seek custody.

Another Australian Merchant Ship Lost; Attacker Is Sunk

Melbourne, June 6.—(AP)—Another Australian merchant ship has been sunk by a Japanese submarine off the coast of New South Wales but survivors said they believed the undersea raider was sunk by an Allied plane only a few minutes after their vessel went down.

(Sinking of two Japanese submarines and probably a third off the east coast of Australia was reported in an Allied communique yesterday. It was not immediately clear whether the Melbourne dispatch referred to these or to still another submarine.)

Glimpses to the roof of the deck-house which was blown clear by the blast, survivors saw an Allied plane swoop to within 20 feet of the water and release three bombs, the last of which exploded at the spot where they believed the submarine was cruising just beneath the surface.

Japs Claim Control
Tokyo (From Japanese Broadcasts) June 6.—(AP)—Capt. Hideo Hiraide, spokesman of the navy press section, declared today that "our imperial navy, which has placed the eastern half of the Indian ocean under its control, is now operating along the eastern coast of Africa in swift pursuit of British warships."

Midway Attackers Suffer Heavy Damage

Parted By Death

Eugene Milby (right) and his twin brother Eudell, sophomore students at Olivett college, never have been separated for as much as 24 hours. Last Sunday night they started work at the Elwood Ordnance plant. In the explosion early yesterday, Eugene was killed but his brother, standing 200 feet away in the same building, escaped with a scalp wound and shoulder injury. (Story on Page 2).

British Bombers Renew Attack On German Bases

Raid Industrial Districts Of The Ruhr; 13 Planes Missing

London, June 6.—(AP)—The RAF topped off the week which saw it open the greatest air offensive in history with a third battering night assault upon the German Ruhr last night and by sending what observers called the "biggest sweep of the week" against the occupied coastline in a daylight attack.

The "biggest sweep of the week" meant that probably more than 1,000 fighter and fighter-bomber planes were engaged in the day operations. The official statement that 13 aircraft were missing tended to confirm unofficial estimates that possibly as many as 300 planes participated, considering the usual ratio of losses.

A well-posted source said the RAF had thrown more than 3,000 night bombers against Germany in the week ended with last night's raid. The losses were 113, and were estimated at just under four per cent of the assault force.

"Only the weather will halt the offensive," it was said.

Cities Unidentified
The air ministry reported the night targets were within the Ruhr without identifying the cities attacked. The arsenal city of Essen, hit by 1,000 raiders Monday night and a moderate force 24 hours later, is a major center in that river valley.

A five-point daylight sweep by RAF fighters against Nazi bases in Belgium and France late yesterday, which the air ministry termed "one of their biggest simultaneous offensives," set a fast pace for the fresh.

Japanese Fleet Limp As Battle Rages

May Presage Greater U. S. Victory Than That Of Coral Sea

Honolulu, June 6.—(AP)—Crushing defeat of a big Japanese fleet which attempted to seize Midway Island in a desperate bid for control of the mid-Pacific grew in proportions today as the United States pressed home new attacks on an enemy which appeared to be limping away.

Possibly presaging a victory even greater than that of the Coral sea, Admiral Chester W. Nimitz said today in the office of Ruel E. Hall, county superintendent of schools. The 14 applicants were all boys seeking general or agriculture scholarships.

Elwood Blast Shows Need Of Defense Corps

Emergency Police Would Act To Guard Damaged Property

If a few more windows had been broken in Kankakee during the Elwood explosion early Friday, the emergency police wardens now being organized by the Kankakee citizens defense corps would have been called into action for the first time.

"This was pointed out today in emphasizing that a definite need for a well organized corps exists here. As it was, the regular city police force was able to handle the detail of guarding merchandise until other arrangements could be made."

Volunteer workers are still being sought to complete the ranks of emergency police, fire and air raid wardens, rescue squads, nurses aides and medical and canteen corps assistants.

All Get First Aid
At a meeting of the executive council Friday noon in the Hotel Kankakee, plans were formulated for starting first aid instruction for all departments of the defense corps during the week of June 22.

The Red Cross is now training 15 instructors for this work. All workers will meet in groups of 75 or more, two hours a night, one night a week, for five weeks of first aid instruction. Following this, they will hold separate meetings and train in their specialties.

In advance of all instruction, a general meeting of the entire membership of the corps will be held the evening of June 16 at Kankakee high school. Admission will be by ticket only and will be confined to the workers.

Britain's Desert Armies Driving Germans Back

Nazi Field Marshal Is Reported To Have Lost Half Of Armored Force

BY THE ASSOCIATED PRESS
Britain's desert armies were reported to have won armored superiority in the 12-day-old battle of North Africa today as tank-led British infantry striking from three sides, pounded the Germans back toward a gap in the main British defense line.

Frontline dispatches said Nazi Field Marshal Erwin Rommel had already lost 340 tanks, or about half his armored force.

British headquarters said British troops launched an offensive Thursday night west of El Alamein, 15 miles southwest of Tobruk, and sustained the attack successfully throughout yesterday.

Military observers said the situation was rapidly rolling toward a showdown, with Rommel's main forces hard pressed in the bloody "devil's cauldron" sector east of the gap which his armored columns slashed through the British minefields between Ain El Gazala and Bir Hacheim.

Escape Hatch
Caught behind this 50-mile line, Rommel was said to be counting on using the gap as an escape hatch in the event he is forced to retreat westward once more.

City firemen had two calls yesterday and last evening.

At 319 South Fifth avenue, the motorcycle of Floyd Brown caught fire when gasoline from the tank overflowed onto the hot motor. Attempts were made to put out the fire by dashing water on it but this failed and firemen were summoned. The damage was estimated at \$20.

An awning on the Merchant street side of the Arcade Dress shop, 189 South Schuyler avenue, caught fire last evening from a carelessly discarded cigarette. Damage was about \$5.

Experts See Turning Point In Long Fight With Axis This Fall

Washington June 6.—(AP)—Military experts reviewing six months of global war concluded today that Axis striking power had been considerably blunted since the United States plunged into conflict December 7 but warned that the great battles for final overwhelming victory are yet to be fought.

Virtually all the things that have been done to date—conversion of the nation to a war economy, creation of the huge and growing army, extension of supply lines to all parts of the world—were described as constituting only the prelude to the grand offensives which alone could bring triumph.

How soon and effectively these offensives may be undertaken, it was said, depends partly on the speed of Allied preparations and partly on enemy counter-measures in the present main theaters of conflict.

Turning Point
In the opinion of some well-informed authorities however, prospects are that a definite turning point in the long fight may be reached this fall; and already there are evidences of fundamental changes in the strategic situation which suggest that both the Japanese in the Pacific and the German in Europe are suffering heavily from British bombardment.

Japanese Fused
What the Japanese themselves may do in an effort to secure their already enormous conquests in east Asia and the western Pacific is a puzzle.

As some authorities see it now the Japanese problem in broad strategic terms is a defensive one. Flushed with their triumphs in Hongkong, the Philippines, Malaya, the Netherlands Indies and Burma, they are nonetheless beset by actual and potential enemies on all sides.

6 Known Dead, 7 Missing From This County

Community's Worst Disaster; Identify By Fingerprints; Most Of "Missing" Are Dead

(Obituaries on Page 2)
Kankakee county today counted 14 of its residents in the list of 61 men reported dead or missing in the explosion yesterday at the Elwood Ordnance plant. This toll of lives ranks the incident as one of the severest tragedies in the history of this community.

The blast, which shook northeastern Illinois with earthquake force felt 100 miles away, was the first serious accident at the \$30,000,000 Ordnance works which spreads over 23 acres of southern Will county and is regarded as one of the largest of its kind in the world.

Identify Fingerprints
While bomb and shell production continued elsewhere over the 15,000-acre layout, army officials and fingerprint experts toiled at the grim business of identifying victims, many of them literally blown to pieces.

The count so far showed 23 persons known to be dead, of which 20 have been identified. The other three were listed on a roster of 31 described as missing. In addition, 41 injury cases also were treated, 13 of whom remain in the plant hospital, two in critical condition.

The Kankakee county list of dead includes:

Harold D. Harper, Kankakee, Eugene F. Milby, 23, Olivett college.

Harold H. Hawkins, 40, Herscher, formerly of Kankakee, Wendell E. Kellogg, 30, Arcora Park.

Louis F. Trimble, Mokena, Lawrence E. Wilson, Kankakee. The men from this county reported missing are:

Roy F. Tighe, former mayor of Bradley, Joseph C. Calton Jr., 307 South Fourth avenue, Harold K. Nance, 19, 391 North Schuyler avenue.

Leo T. Moran, Manteno, Millard K. Hammond, Manteno, Oscar J. Peterson, Bradley, Leo E. Byrum, Kankakee.

2 From Iroquois
At least two Iroquois county casualties were reported. James A. Walsh of Gilman was one of the identified dead and Frederick Thompson of Watseka the other. One of the men reported in Chicago.

Germans Fear Fifth Column If Invaded

Still Executing Czechs For Assassination Of Reinhard Heydrich

By JOHN A. PARRIS
United Press Staff Correspondent
London, June 6—(AP)—The Germans, still executing innocent Czechs for the assassination of Reinhard Heydrich, today were trying to suppress a potential fifth column they might stab them in the back the moment an Allied invasion begins.

Occupation authorities ordered all Belgian commissioned and non-commissioned officers and reserve officers to register between June 8 and 13. Those failing to do so will be "severely punished," the Germans said.

Obviously this was an effort to control more firmly men who might organize and lead guerrillas, fighting almost as efficiently behind and among the Germans as real armies.

It was recalled that the Germans had previously taken Dutch officers as hostages in case of attempts against them.

In this connection, the German radio loudly denied "reports of the alleged deportation" of 100,000 Netherlands to White Russia.

It was true, the radio said, that "some criminal Jews" have been sent to former Russian territory to work. The Germans frequently use "Jew" and "criminal" as synonyms for any one who does not approve their handiwork.

Thirty More Martyrs
Thirty more martyrs were shot at Prague and Brno yesterday, making a total of 227 killed in reprisal for the shooting of Heydrich, No. 2 man of the gestapo. Among them was the secretary of the Prague chamber of commerce and his wife, a leading Prague banker, two university professors and a Catholic dean, reports reaching London said.

Their "crimes" were approving the death of Heydrich and supporting those who shot him—still missing despite a \$400,000 reward and diligent gestapo work—not registering or having dealings with others who had not registered, and having arms. The gestapo still was looking for the patriots who tried to blow up the offices of the "French volunteers legion for fighting Bolshevism" in Rennes. Damage was considerable, the trans-ocean agency said, but none was hurt or killed, although the explosion was strong enough to blow the windows from houses in the neighborhood.

Members of Jacques Doriot's mili-

tant Fascist organization demonstrated against Jews last night in Paris and Nice.

In Paris, they invaded a synagogue while 20 Jews were praying. In the fight that followed "a considerable number on both sides" was wounded, dispatches from Vichy said.

In Nice, Doriot's followers threw bricks through the windows of Jewish stores.
